| Quantity   | 500 ml                |
| Barcode    | EAN 13: 8034108891491 |
| Confection | 12 pz                 |

**POLYURETHANE FOAM CLEANER** – Specific product for instantly removing and dissolving non-hardened polyurethane foam residue from the tools used (spray system) as well as from garments and other materials.

### Technical Specifications:

|                       |  |
|-----------------------|--|
| Aspect                | Cylinder containing under pressure fluid |
| Color                 | Colourless                               |
| Odour                 | Characteristic of solvent                |
| Relative density      | a 20°C 0,66 ÷ 0,70 g/ml                  |
| Flash point           | Low. 0° C                                |
| Pressure at 20°C      | 4/6 bar                                  |
| olfactory threshold   | 47,5 mg/m3                               |
| Evaporation rate      | 5,6 (BUAC=1)                             |
| Vapor tension         | 240 hPa (20°C)                           |
| viscosity             | 0,32 mPa.s. (20°C)                       |
| Molecular weight      | 58.09 (liquid base)                      |
| Initial boiling point | 56°C                                     |

**EROGATORE PULITORE SCHIUMA POLIURETANICA**  
POLYURETHANE FOAM CLEANER ACTUATOR
